

Teachers Sanitary Bulletin Volume 7-8; No. 11; Nos. 20-26; Nos. 28-33

By Michigan Board of Health

Rarebooksclub.com, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1898 edition. Excerpt: .there being that number, the number which has occurred was only 2.25 cases, and only.1 of one death per outbreak. In other words there are about five times as many cases and five times as many deaths where the two measures are neglected as in those outbreaks where they are enforced. I may say, before passing from that diagram, that you will see that almost precisely the same thing is true relative to diphtheria that is true of scarlet fever, that in the average township, village or small city, where the measures of isolation and disinfection are neglected, about thirteen Plate 937, page 31. ISOLATION AND DISINFECTION RESTRICTED SCARLET FEVER AND DIPHTHERIA IN MICHIGAN DURING THE 10 YEARS 1887-96. cases occur and about three deaths. In the localities where isolation and disinfection are enforced there are only about two cases and an average of...
