

## Natural Resources of Himalayas

By K.S. Gulia

2007. Hardcover. Book Condition: New. 360 Natural Resources of Himalaya are immense in richness and variety. First and the foremost, the forest cover at distinct altitudes serves the ecological and environmental balance in the region. The mountain ranges have the deciduous alpine scrubs, birch for forests on the snow-capped peaks to the tropical evergreen forests and Sal tree forests in Tarai and Bhabar. The nature of forests changes with altitudes. The traditional ethnobotany is the source of medicine, foodstuff in form of wild fruits, barks, leaves and flowers to the rural and tribal folks, besides fodder for animals. The book deals fodder for animals. The book deals with a wide variety of Himalayan vegetations. The book also deals with the ethnobotany of Sikkim, Darjeeling, Arunachal Pradesh, Himachal and Uttarakhand in a great detail. Besides the water, mineral, industrial and commercial forestry resources of the mountainous regions have been discussed. The book contains wealth of information on the subject. About The Author:- Brigadier (Dr.) Kuldip Singh Gulia is a noted and active environmentalist. A Ph.D. in Human Ecology of the Himalayan Ecosystems, he has applied himself into sustained research in various facets of Human Ecology. Compilations of the vast storehouse of...
